

Congress of the United States
Washington, DC 20515

October 30, 2019

The Honorable Nancy Pelosi
Speaker of the House
U.S. House of Representatives
Washington, D.C. 20515

Dear Speaker Pelosi,

We write to express our ongoing disagreement with the manner in which the Majority in the House has conducted its so-called "impeachment inquiry" of President Trump, and to offer a constructive solution that can bring forth a measure of accountability and transparency that the American people deserve and has thus far been lacking.

This week, it is expected that you will bring forward a vote on a resolution "*directing certain committees to continue their ongoing investigations as part of the existing House of Representatives inquiry into whether sufficient grounds exist for the House of Representatives to exercise its Constitutional power to impeach Donald John Trump, President of the United States of America, and for other purposes.*"

As you know, there is no requirement for a roll call vote in the House to be conducted by electronic device and tabulation. As you also know, a vote conducted by electronic device shields Members from having to stand before their colleagues, their constituents, and the world to announce their decision on such a momentous matter in their own voice.

While we may profoundly disagree on the merits of the impeachment inquiry overall, we can agree that this vote is one of the most serious and profound votes any of us will ever cast. Therefore, we request that for consideration of this measure, as well as any subsequent votes on the impeachment matter, you grant a request for a call of the roll instead of an electronic vote. Out of 330 million Americans, we are the 435 elected and trusted to make this decision on their behalf. They deserve to hear from our own voices rather than from a spreadsheet on the Clerk's website.

Sincerely,

Brian Babin, D.D.S.
